

CAMBRIDGE
TECHNOLOGY ENTERPRISES

know about us.

Cambridge Technology Enterprise (CTE) is a global business and technology services company. Recognized as a thought leader and innovator of enterprises solutions, we help companies today to capitalize on the convergence of Cloud and Big Data.

We offer an end-to-end approach in designing and implementing enterprise IT strategies leveraging the cloud, where it is possible and relevant.

Because of our expertise across all domains, we serve as a single source of IT strategy and implementation to our customers.

Our main asset is the deep pool of talented professionals and industry-leading partnerships to meet customer requirements in a timely and cost-effective manner.

We pride ourselves at possessing all IT skills to deliver mission-critical solutions that addresses the corporate IT needs of our customers.

we aim to create
and enhance
value to
our customer's
business through
**continuous
innovation.**

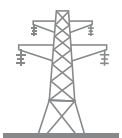

we believe.

big data and the cloud are game changers transforming how businesses are defined, designed and delivered while enabling enterprise value.

AI and machine learning will define industries both new and existing, transforming data into a valuable knowledge asset and a catalyst for disruption.

companies seek end-to-end partners which CTE through its services, partnerships and experienced team is uniquely positioning to deliver.

we are focused on.

Energy & Utilities

Life Sciences

BFSI

Industrials

Infrastructure

Cambridge Innovations

leadership through innovation.

CTE helps organisations seeking to realize their business potential to capture new enterprise value by leveraging the convergence of **big data** and the **cloud**.

why prefer us?

our experience: we are a global IT services leader, spanning more than 17 years of experience; operating globally and delivering locally to help customers achieve their business goals.

we never sleep: state-of-the-art delivery facilities across geographies providing a 24/7 development cycle coupled with unparalleled customer service.

delivering quality: quality at each level and focus on service excellence using world class standards – ISO 9001:2008 and ISO 27001:2013.

call your own: dedicated competency centers and support services for each of our customers.

what you get: value and cost is what you are assured when you partner with us.

talent: we hire the best to serve our customers and upskill them to serve even better.

we believe in **unparalleled customer service**
and this is what our customers say.

"CTE has been a strategic and valuable technology partner that has allowed us to focus on product innovation while working with them to build a scalable, real-time platform that is the most advanced assistance solution globally."

Rohan Malhotra, CEO, RoadZen Inc.

"Testing services from CTE was amazing and we truly value this relationship for over half a decade."

Philip Hohn, Process Excellence Project Manager, I.D.Systems

"Throughout our relationship over 11 years with CTE, they've truly grown their domain expertise. They work to understand our business, business drivers, and are very flexible as our needs change."

Jessica Kipper, Director of Product Management, Schneider Electric
